

# Becoming Racially Conscious Math Educators and Leaders

## WMC Virtual Series

### Intended Outcomes:

- Math Teachers will become conscious of how race plays out in the classroom
- Math Leaders will become conscious of how race plays out in their school/district/systems
- Teachers and leaders will learn and be able to apply anti-racist practices within the classroom, school, district and beyond
- Teachers and leaders will analyze decisions through new lenses and value the lived experiences of non white staff, parents, and students as a part of the decision making processes

**Cost: \$75 per participant**

**Registration Information**  
[www.wismath.org](http://www.wismath.org)
