

MATHEMATICAL MODELING SERIES

Event 1: What is Mathematical Modeling?

January 31, 2022

Come learn about the attributes of mathematical modeling as highlighted in the Wisconsin Standards for Mathematics (2021) and engage in grade band experiences in order to connect mathematical modeling to your own educational setting.

.....

Event 2: Creating Modeling Tasks

February 21, 2022

Using the lens of the modeling process, you will learn how to construct and make-over modeling tasks that can be readily used in the classroom.

.....

Event 3: A Celebration of Modeling in the Classroom

March 21, 2022

During this session, you will learn from and collaborate with grade-level educators who have successfully implemented mathematical modeling into their classroom.

Time: 4 p.m. - 5:30 p.m each date

Location: Virtual via Zoom

Cost: \$50 for the entire series; Free for teacher candidates

Audience: PK - 12 educators supporting the student learning of mathematics, higher ed faculty, teacher candidates

Registration:
