

# Productive Math Struggle

## Virtual Book Study

**WMC is excited to host a virtual book study on *Productive Math Struggle: A 6-Point Action Plan for Fostering Perseverance***

All students face struggle, and they should - it is how they learn and grow. The teacher's job is not to remove struggle, but rather to value and harness it, helping students develop good habits of productive struggle. However, when left unsupported, struggle can become unproductive and demoralizing, negatively influencing students' mathematical identities.

*Productive Math Struggle: A 6-Point Action Plan for Fostering Perseverance* provides an action plan to help teachers help students to overcome obstacles and learn to engage in true productive struggle.

During our book study, we will dig into six specific actions you can use to help foster productive struggle. Examples from K - 12 will be used to illustrate these ideas at all grade levels.

**Author John J. SanGiovanni will join the kickoff event to set the stage for this important work!**

### DATES

- February 10, 2022 (Kickoff Event)
- February 17, 2022
- February 24, 2022
- March 3, 2022
- March 10, 2022

### TIME

7 p.m. - 8:30 p.m. each date

### AUDIENCE

PK - 12 educators supporting student learning of mathematics, higher ed faculty, and teacher candidates

### COST

\$35 per person; \$15 for teacher candidates

### DEADLINE

Register on or before February 5 to receive a complimentary copy of the book by mail.
